## THE DEMOCRATS.

Judge Alton B. Parker Selected as Candidate for President on First Ballot.

### NOMINATION MADE UNANIMOUS.

Ex-Senator H. G. Davis, of West Virginia, Was Nominated for the Vice Presidency.

Judge Parker, in a Telegram to the Convention, Expressed His Views on the Gold Standard Question, to Which a Reply Was Sent.

St. Louis, July 7.—The democratic national convention met Wednesday, listened to the extended speech from representative John Sharp Williams, its temporary chairman, appointed the committees necessary to perfect a permanent organization and adjourned. In a session lasting two hours and 59 minutes one striking incident overshadowed all other proceedings. That was the enthusiastic and prolonged cheering which greeted the name of Grover Cleveland. While the outburst which greeted the name of the former democratic president before its last syllable had fallen from the lips of the temporary chairman was noteworthy in itself, it was magnified by contrast with the greetings accorded the actual men who stood for all that has been opposed to Mr. Cleveland within the party during the last eight years.

St. Louis, July 8.—The democratic national convention Thursday adopted the report of the committee on rules, credentials and permanent organization. The session opened at 10 o'clock, an hour later took a recess until 2 p. m., and adjourned at 6:30 until 10 o'clock Friday. During the day several speeches were made, chief of which was William Jennings Bryan's effort to overthrow the report of the credentials committee and seat contesting delegates from Illinois. The controversy was ended by the rejection of the minority report of the committee by a vote of 647 yeas to 298 nays. Though Mr. Bryan's speech and his appearance on the floor of the convention was cheered far beyond any previous demonstration, it made few votes.

When the result of the contest was announced the report of the committee on permanent organization was made. Representative Champ Clark, who was chosen permanent chairman, addressed the convention.

The platform was presented to the full committee at 8 o'clock Thursday night, and the contest over the gold plank which had occurred in the subcommittee was soon renewed and with cumulative force.

The day was given up by the subcommittee to the consideration of the platform, action on the most important of them being postponed until the closing hours of the sitting. The taking up of the financial plank precipitated a sharp debate in which many of the members participated. Senator Daniel, of Iowa, made the most vigorous speech. He admitted that the increase in the production of gold had had the effect of creating a sufficient supply of money for the present needs, but said that the output of the precious metals was irregular as to render it most uncertain, and argued that while the present supply may be sufficient to meet the needs of the world, it can not be relied upon permanently.

He was replied to by Senators Daniel and Hill, who contended that the plank presented recognizes the quantitative theory of money advocated by the democratic party and from this point drew the conclusion that the declaration is not inconsistent with former pronouncements on the subject.

St. Louis, July 9.—The democratic national convention Friday night adopted a platform by a viva voce vote and listened to nominating speeches for president. Judge Alton B. Parker was named by Martin W. Littleton and William Randolph Hearst by D. M. Davis. Both orators were applauded at length. Anti-Parker delegations attempted to create enthusiasm for their candidates but the Parker men remained undisturbed and unconcerned. Hearst delegates paraded the hall but the showing was small in comparison with the Parker procession which preceded it.

Nominating speeches for favorite son candidates and seconding speeches for both Parker and Hearst occupied the convention for several hours. The convention hall seats about 10,500 persons and from appearances hundreds more had been admitted. The floor and lower and upper galleries contained thousands of sweltering men and women oblivious to the fact that the crowded condition of the hall endangered every life.

As soon as the convention had been called to order Chairman Clark announced that the report of the committee on resolutions was ready. Senator Daniel read the report as chairman of the committee. The convention confusion was so great that not a word could be heard ten feet from the platform.

The great climax of the convention

—the nomination of a candidate for president—followed immediately upon the adoption of the platform.

Chairman Clark proceeded to that order of business without delay. Alabama was called and yielded to New York. Mr. Littleton's speech immediately pleased his audience and when he concluded pandemonium reigned. Flags waved, banners were held aloft and great as was the crowd, delegates carrying the standards of the Parker states paraded through the convention, pushing, trampling and fighting all who obstructed their progress. The scene was one of tremendous confusion. Then was enacted a scene that recalled an incident of the democratic convention in Chicago which nominated William Jennings Bryan eight years ago.

California, a Hearst state, was next in order. D. M. Delmas, of that state, was recognized and there was some cheering as he made his way to the platform, but it was not prolonged. The hall was a bedlam when Mr. Delmas concluded.

Motion to limit seconding speeches to four minutes was put to vote and carried. Vigorous applause followed Mr. Oremeyer's mention of the name of Gen. Miles, but when he continued his address after naming his candidate he was frequently interrupted by the galleries and the applause at the conclusion of his remarks was short-lived. In the midst of the handclapping Chairman Wiley's gavel fell sharply and ended it.

At 1:28 Saturday morning Maine gave way to Missouri and Champ Clark, of that state, took the platform to place in nomination Senator Francis M. Cockrell, of Missouri, for the presidency. Clark was heartily cheered and brought out great laughter by his earnest and witty remarks in turn. When Nebraska was called at 2:25 there were loud cheers for Bryan. After many calls Bryan mounted a

chair and received an ovation. Bryan announced that Nebraska yielded to Wisconsin.

"Massachusetts," called the clerk, and Patrick A. Collins, of Boston, made his way to the platform to nominate Richard Olney, of the Old Bay state.

When Wisconsin was called David S. Rose nominated Wall, of Wisconsin. J. S. Williams, who was placed in nomination, withdrew his name early Saturday morning and seconded Parker.

St. Louis, July 9.—6:39 a. m., Saturday morning.—Alton B. Parker was nominated for president. On the completion of the first ballot he received a total of 658 votes. Before the vote was announced, Idaho changed her six votes.

Washington changed from Hearst to Parker. This was followed by a motion by Champ Clark to make the nomination of Parker unanimous. Scenes of great enthusiasm followed. A monster American flag was unfurled from the dome of the building. The band struck up "Star Spangled Banner."

Patrick A. Collins, of Massachusetts, took the stand to second the motion to make the nomination unanimous. Parker's nomination was made unanimous.

Convention adjourned until 2 o'clock Saturday.

St. Louis, July 11.—The following telegram was received from Judge A. B. Parker, by the democratic national convention Saturday afternoon just as the democratic national convention was about to adjourn and nominated a candidate for vice president:

"I regard the gold standard as firmly and irrevocably established, and shall act accordingly if the action of the convention of to-day shall be ratified by the people. As the platform is silent on the subject, my views should be made known to the convention, and if it is proved to be unsatisfactory to the majority, I request you to decline the nomination for me at once, so that another man may be nominated before adjournment. A. B. PARKER."

The convention then adjourned until 7 o'clock Saturday evening. On ressembling the convention partially granted Mr. Parker's request by sending him the following telegram:

"The platform adopted by this convention is silent on the question of monetary standard because it is not regarded by us as a possible issue in this campaign, and only campaign issues were mentioned in the platform. Therefore, there is nothing in the views expressed by you in the telegram just received which would preclude a man entertaining them from accepting a nomination on said platform."

Nominations for vice president were then received and a vote was taken. Alabama, Arkansas and California voted solidly for ex-Senator H. G. Davis. Turner scored seven on the Colorado vote and Williams received three at the same time. The final result of the ballot was unofficially:

Williams ..... 195  
Turner ..... 100  
Davis ..... 654  
Harris ..... 58  
Iowa did not vote.

The nomination of Davis was made unanimous.

At 1:31 o'clock Sunday morning Senator McCreary adjourned the convention sine die, the band playing "Auld Lang Syne."

The residence of Sam King, in Pikeville, was destroyed by fire last week.

## STORM VISITS FAIR

Lightning Struck Agricultural Building But Structure Was Not Seriously Damaged.

### THE VISITORS DRENCHED BY RAIN.

Wind So Strong That the Doors of the Large Fair Buildings Were Ordered Closed.

Considerable Damage Was Done to Property in St. Louis and One Man Was Struck By a Thunderbolt and Killed.

St. Louis, July 12.—A terrific storm of wind, rain and hail prevailed in St. Louis and vicinity for a short time Monday afternoon, causing considerable damage to property. One man was killed by lightning and five others were injured, but not seriously hurt, by flying missiles. The maximum reached by the wind was 65 miles an hour.

Twelve barges were blown across the river, and 18 or 20 houses on 21st street, between Washington and Carr streets, were completely unroofed and other damage throughout the city. Some of the hall stones that fell during the storm measured an inch in diameter. Windows were broken by the hail stones, and several delivery wagons were blown over.

A man named O'Toole was struck by lightning near his home and killed. Wind struck the steeple of the North Presbyterian church and blew it across the street into the front of a grocery store. Several buildings were unroofed, trees were uprooted or broken off, heavy plate glass windows were broken by wind and hail and telephone and telegraph wires were carried away in various parts of the city.

At the World's fair grounds the high wind and heavy rain broke suddenly without warning. Visitors had no time to seek shelter, hundreds who were more than 100 feet from the buildings being drenched by the sudden and violent downpour.

The wind was so strong that the Jefferson guards were ordered to close the doors to the large World's fair buildings in order that the wind might not raise the roofs. Lightning struck the agriculture building, but did no serious damage.

Lincoln, Neb., July 12.—A tornado Sunday night destroyed seven farm houses and barns and outbuildings near Burwell. No lives were lost. The list of injured is not obtainable.

### A TORPEDO ATTACK.

Japanese Attempted to Penetrate Harbor at Port Arthur.

Che Foo, July 11.—A European who left Port Arthur at 6 o'clock Sunday afternoon reports that the Japanese made a torpedo attack Sunday morning, attempting to penetrate into the harbor. They were repulsed without loss to either side.

The European reports further that on July 7 severe fighting occurred around Port Arthur. The Russians claimed to have driven the Japanese back on all sides, but admitted a loss of over 1,000 killed. Seven hundred wounded are said to have arrived at Port Arthur July 8 and it was reported that more were to come in.

Gen. Count Keller's Headquarters, via Liao Yang, July 12.—A serious fight is expected soon. The opposing forces are now occupying the hills on opposite sides of the Valley of Lyankhi river, where it crossed the Liao Yang road. The Russians, both officers and men, are anxious to contest the Japanese advance.

The exhibit of the Philippine Islands at the World's Fair costs more than \$1,000,000. More than 1,000 native Filipinos will comprise a part of the exhibit, and 40 acres of ground are required for the Philippine buildings and villages. An accurate reproduction of Manila is one of the architectural features.

The sculpture adorning the World's Fair grounds at St. Louis, embracing creations by the world's greatest sculptors, has cost more than half a million dollars. Sculpture was never used so freely in adorning an exposition grounds, and critics say that the offerings never possessed so great artistic merit.

Connecticut's building at the World's Fair is finished and the furnishings are being installed. The building is a replica of the Sigourney mansion at Hartford, and much of the woodwork in the original structure has been placed in the reproduction.

The largest pipe organ ever built has been shipped from Los Angeles, Cal., to St. Louis. It will be placed in the Festival Hall at the World's Fair. The organ has 145 stops and some of the larger pipes are five feet in diameter.

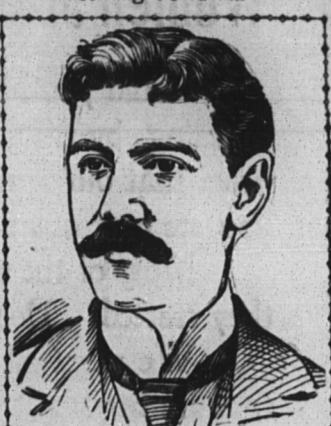

The Palace of Agriculture at the World's Fair is the largest building ever built to contain a single department. It is 1,600 by 546 feet and covers 23 acres. The building is finished and the installation of exhibits is in progress.

Chief Joseph and Geronimo, two of the most famous Indian chiefs alive, will make their home on the Indian reservation at the World's Fair during the seven months of the Exposition.

Four miles of standard gauge railroad tracks have been laid in the Palace of Transportation at the World's Fair. Even this does not exhaust the floor space of the spacious structure.

### A CONTINUAL STRAIN.

Many men and women are constantly subjected to what they commonly term "a continual strain" because of some financial or family trouble. It wears and distresses them, both mentally and physically, affecting their nerves badly and bringing on liver and kidney ailments, with its attendant evils of constipation, loss of appetite, sleeplessness, low vitality and despondency. They cannot, as a rule, get rid of this "continual strain," but they can remedy its health-destroying effects by taking frequent doses of Green's August Flower. It tones up the liver, stimulates the kidneys, insures healthy bodily functions, gives vim and spirit to one's whole being, and eventually dispels the physical or mental distress caused by that "continual strain." Trial bottle of August Flower, 25c; regular size, 75c. At all druggists, Louisa Drug Co.

Bryan says he will support Parker and Davis.

The Democratic party has not been so thoroughly united for many years as it is now.

Henry G. Davis was in the U. S. Senate from West Virginia for twelve years. He is a very successful and able man.

A great outpouring greeted former Senator Davis on his return to his home at Elkins, W. Va., from the St. Louis convention.

The stock market took a "boost" immediately after the nomination of Parker and Davis, which shows that "confidence" is with them.

The following deserved and complimentary mention of one of Big Sandy's prominent men is from the Salyersville News:

"While the election for State officers is some time ahead, much is being said along the Big Sandy and other sections of the State, advocating the claims of Walter S. Harkins, of Prestonsburg, as the next Democratic candidate for Governor.

"Mr. Harkins is in no sense an office seeker, and we do not know whether he would be personally willing or not to have his name used in this connection, but the recent developments in this section with which he has been prominently identified, have brought his name before the public as a wide-awake, competent and public-spirited man; as one who would honorably and well fill the duties of chief executive of the State in a creditable manner.

"To Mr. Harkins, as much as any other man in this section, belongs the honor for the developments now going on in South Eastern Kentucky. In season and out of season, when the prospect looked dark, he has given his time and labor for the people of this section. "From the time of his first entry into professional life, he expressed his faith in this section and predicted that the day would come when the mountains of Kentucky would be the richest and grandest portion of the State. While others were doubting, he put his faith in this direction into labor and the people are soon to reap the fruits of his labors."

below here, was shot and instantly killed by a revolver in the hands of his thirteen year old brother on last Sunday morning. His brother, it is said, was trying to shoot a hawk with a revolver, and it failed to fire, and while examining it to find the cause, Leonard stepped in front of it. The revolver fired, the ball passing through his breast with the above results.—Martin County News.

Special Pension Examiner Wm. A. Folger returned Saturday from a trip through West Virginia. He arrested and brought with him one Willie Hobbs, of Wilsontale, W. Va., who is charged with the grave offense of false personation of a Special Pension Examiner.

It appears that Hobbs has been demanding and receiving fees from the old soldiers of Johnson county, Ky., and Wayne county, W. Va., claiming that he had power to secure for them pension in arrears.

Hobbs is now in jail at Catlettsburg and was held for the October term of the U. S. Court at Covington, before U. S. Commissioner Tinsley, at Catlettsburg, Saturday.—Ashland Independent.

On Thursday last, while working on the stone bridge at the mouth of Hurricane creek, three men Willie Marrs, James Darnon and Willie Hall were badly injured. It seems that a tram car carrying stone from the quarry to the bridge was in charge of a negro who let it get away from him. The car ran down the track to the bank left the rails and turned over an eighteen foot bank and caught the men. Marrs is in a worse condition than his comrades. His right leg is broken and body badly crushed by a stone weighing at least sixteen hundred pounds rolling on him. As we go to press he is reported slightly improved but no means out of danger. Just how badly the other men are injured we are unable to learn.—Pikeville Times.

Johnson Hatfield, one of the convicted members of the famous feud, has been pardoned by Acting Governor Thorne, because of ill health. The following was sent out from Frankfort before the pardon was granted:

E. M. Hatfield, of Winona, W. Va., is here appealing to Acting Gov. Thorne for pardon of his relative, Johnson Hatfield, of Pike county, who is serving a life sentence in the State penitentiary. Hatfield is one of the best prisoners in the institution here, being a trusty. In Jan-

uary, 1900, he was in Franklin county jail awaiting disposition of an appeal in his case by the Court of Appeals, and Jailer Lawrence trusted him out of the jail, and he did guard duty with a rifle every night for weeks when it was thought the Taylor soldiers would attack the small company of soldiers under Maj. Allen and Capt. Longmire quartered at the jail. Warden Lillard says Hatfield has proven a trustworthy in every way.

Charles Fannin, a son of P. S. Fannin, one of the best-known farmers in Boyd county, was shot and seriously wounded by Charles Hazlett Monday. He is not expected to live. It seems that Fannin was driving along Bear creek road when he met Hazlett, who was riding horseback. They stopped and engaged in conversation, when Fannin playfully tapped Hazlett on the hat with his whip. Hazlett, who had been drinking, informed him that if he did it again he would shoot him. Fannin, who thought Hazlett was only joking, tapped him again with his whip, whereupon Hazlett drew his revolver and shot him, the bullet taking effect in his right side.

Fannin was taken to his home at Culbertson, where he received surgical attention. Hazlett got away and has not been seen since the shooting. His home is in the neighborhood of Bolts Fork. Fannin is 25 years old and married. Hazlett is 21.

LATER:—It is now thought the wound is less serious than at first reported, and that Fannin will probably recover.

son of the last McCoy, killed in the famous Hatfield-McCoy feud in Kentucky and who was forced to take refuge in New Mexico several years ago, was brought to Albuquerque today, his body badly riddled with bullets from the Zuni Mountain country in the western part of the territory, where he says he received his wounds at the hands of a member of the Hatfield clan.

"McCoy's story was only partially told when he lapsed into unconsciousness in the hospital here, but he said that several times in the past few weeks he and his son have had encounters with a man named Wheatley, who has sought to make trouble. A few days ago the younger McCoy met Wheatley in the hills and gave him severe beating. Yesterday Wheatley walked into the McCoy cabin and opened fire. The younger McCoy escaped, but his father was shot in the body and his leg was broken.

"Wheatley fled from the house to the stables of the American Lumber Company, where he saddled a blooded horse belonging to the Superintendent and made his escape into the hills."
